  2. Disciplinary measures may need to be used. Use positive measures if at all possible, however, if negative measures are required the problem should be handled by the classroom teacher. This will emphasize the teacher's position rather than minimizing his or her position. Be just and fair, as well as reasonable.
  3. In most cases a teacher need only to ask the student in a quiet, courteous and firm manner to correct his behavior. If the behavior is habitual and not correcting, or if the behavior is disruptive to classroom instruction to the point that instruction and the integrity of the instructional process is undermined, then the student should be sent to the High School office and a Discipline Referral issued via Lumen. Refrain from personal comments. Mr. Woody will discipline grades 10, 11 and 12. Mr. Buthod will discipline grades 7, 8, and 9.

Any teacher who feels professional attire will be ruined or will interfere with teaching may request appropriate over clothes (i.e. coveralls, lab coat, smock, etc.) The only exception to this dress code is a Spirit Day or school dress down day as announced or designated by the principal.

*Remember, as professionals you are setting examples for young, impressionable minds. If you have to think about whether or not attire is appropriate for the workplace, you probably shouldn't wear it.*

C. Workroom

1. The teachers' workroom is for use of faculty members during their prep time.
2. Students are not allowed in the teachers' workroom.

Due to community inquiries and other routine business of the school, it is necessary to know where teachers may be located when not on duty in their regular class periods and when on duty in other parts of the building. **If it becomes necessary for you to leave school, or move your class activities outside of your room, please notify the office as this may avoid embarrassment and inconvenience of everyone.**

E. Leave of Absence

**One-Year General Leaves of Absence**

The Board of Education may grant a one-year general leave of absence for reasons other than the continuation of professional study – for example; illness, child-rearing, military or other personal reasons. These leaves would be subject to the following conditions:

The leave of absence shall be based upon application by the teacher. It shall coincide with the school year and not be for a period of more than one year. Exceptions may be granted for military service.

The applicant shall have been a certificated employee of the school district for not less than six (6) consecutive years immediately preceding the application.

The teacher shall request the leave 90 days prior to the end of the school year preceding the leave period.

The Board of Education shall be able to make satisfactory arrangements for the performance of the ordinary duties of the applicant during the period of which the leave of absence is requested.

The Board of Education shall determine whether the applicant has provided valid reasons for a leave. Also, the number of leaves granted in any one year shall be left to the discretion of the Board of Education.

Upon the staff member's return to the school system, the employee shall be reinstated at the proper position on the salary schedule – losing only that time during which regular duties were not performed. This means at the conclusion of a school year, an employee who has 120 accumulated sick leave days banked and has not used all of his/her personal leave days granted in that year will be reimbursed at the end of the school year for the days not used in excess of 120.
- d. Sick leave may be used only in the case of illness, illness of a member of the immediate family or pregnancy.

G. Release From Contract

Any contract may be terminated at any time by mutual consent. Any request for release from contract by a professional staff member other than the superintendent shall be submitted in writing and directed to the superintendent. A teacher will not be released from contract until after a suitable replacement is available, and then only on conditions set forth in the Missouri Teacher Tenure Act. In the event a teacher submits a written request to be released from a contract after a contract is signed, the following liquidated damages will be assessed:

- 1. Any time after the contract is signed                   \$ 1,000.

## **PUBLIC NOTICE**

All public schools are required to provide a free and appropriate public education to all students with disabilities, including those attending private/parochial schools, beginning on the child's third birthday through age twenty (20), regardless of the child's disability. The public school assures that to comply with the full educational opportunity goal, services for students three (3) through twenty-one (21) will be fully implemented by 1999. Disabilities include: learning disabilities, mental retardation, behavior disorders/emotional disturbance, speech disorders (voice, fluency, or articulation), language disorders, visually impaired, hearing impaired, physically/other health impaired, multiple disabilities, deaf/blind, autism, early childhood special education, and traumatic brain injury.

The public school assures that it will provide information and referral services necessary to assist the State in the implementation of early intervention services for infants and toddlers eligible for the Missouri's First Steps Program.

All public schools are required to provide parents the right to inspect and review personally identifiable information collected and used or maintained by the district relating to their children. Parents have the right to request amendment of these records if they feel the information is inaccurate, misleading, or violates the privacy or other rights of their children. Parents have the right to file complaints with the U.S. Department of Education or the Missouri Department of Elementary and Secondary Education concerning alleged failures by the district to meet the requirements of the Family Educational Rights and Privacy Act (FERPA). You may contact your local district, if you wish to review the requirements provided in FERPA.

The public school has developed a Local Compliance Plan for implementation of Special Education and this Plan is available for public review during regular school hours on days school is in session in the Office of the Superintendent of Schools. The Local Compliance Plan is a written narrative describing the district's plan for compliance with the requirements for identifying and serving all students with disabilities. Included in this plan are the policies and procedures the district must follow regarding storage, disclosure to third parties, retention, and destruction of personally identifiable information. The plan also describes the assurances that services are provided in compliance with the requirement of 34 CFR 76.301 of the General Education Provision Act.

Public schools in the State of Missouri are required to conduct an annual census of all children with disabilities or suspected disabilities from birth through age twenty (20) who reside in the district or whose parent legal guardian resides in the district. This census is compiled as of May 1 of each year. This information is treated as confidential and submitted to the Missouri Department of Elementary and Secondary Education. Information to be collected includes name of each child, parent/legal guardian's name/address; birth date and age of each child; and each child's disability or suspected disability. Should the district fail to submit an annual census, the State Board of Education may withhold state aid until the census is submitted. If you have a child with a disability or know of a child with a disability who is not attending the public school, please contact your school district.

This notice can be provided in languages such as Chinese, Spanish, Arabic, and Vietnamese or any other language as may be necessary.
